WORK EXPERIENCE

Basumoh Nigeria Ltd

AUGUST, 2025

Web Developer (Contract Project)

- Built a Gas Ledger Web App to help manage invoices, receipts, and monthly expenses
- Developed the frontend with React, Vite, and Axios, connected to a Node.js/MongoDB backend.
- Implemented features like invoice generation, vendor transfers, and expense tracking, replacing manual record-keeping.
- Delivered a solution that made financial tracking more efficient, accurate, and easy to use for the team.

InternPulse

JANUARY, 2025

Frontend Developer Intern

- Built responsive web pages with HTML, CSS, and JavaScript.
- Converted UI/UX designs into functional layouts.
- Created interactive components using React.
- Integrated APIs for dynamic content.
- Tested and debugged cross-browser issues.
- Used Git for version control.
- Collaborated with designers and developers.
- Learned new tools and best practices.

PROJECTS

Gas Ledger App - React, Vite, Node.js & MongoDB

- Developed a full-featured web app for managing invoices, receipts, and monthly expenses for a company.
- Built the frontend with React and Vite, integrating with a Node.js/MongoDB backend using Axios.
- Implemented invoice generation, vendor transfers, receipt storage, and expense tracking.
- Delivered a streamlined solution that replaced manual processes, improving efficiency and accuracy

Dictionary App - React & API Integration

- Search any English word for definitions and listen to pronunciations.
- Includes a light/dark mode toggle for accessibility.

Podcast Landing Page - Responsive React & Vite

- Designed a clean, modern landing page optimized for all devices.

Interactive Rating Component - React

- Built a dynamic user rating system with interactive UI feedback.

FAQ Accordion - React

- Implemented an expandable/collapsible FAQ component.
